Total Cost Reduction

Transportation

Consolidated freight charges and site to field requirements.

Construction Costs

Reduction in size, type and amount of necessary on-site equipment.

Pre-assembled products allow for standard training and installation methods.

Materials Management/Purchasing

Single source for as many as 18 separate components.

Working Capital

Total cost of ownership reviews will reveal substantial annual savings.

Administrative Costs

Transaction cost reductions.

Warehouse Inventories

Bundled components can move rapidly from factory to field.

Engineering and Design

Reduced stray GHG emissions due to reduction in threaded connections.
